Professional Summary
With over 15 years of experience in software development and architecture, I specialize in designing and delivering robust, scalable solutions across both backend and frontend ecosystems. My expertise spans .NET, Node.js, JavaScript, TypeScript, cloud platforms, and modern SaaS architectures. I have a strong track record in product development, leading large-scale platforms that process millions of daily requests and delivering high-performance solutions for major enterprise clients.

Core Skills
.NET and C#
Javascript, Typescript, NodeJs, React, React Native
REST API Architecture
Microsoft Azure (App Services, Functions, DevOps)
AWS
Version Control (Git, Azure Repos)
Cloud and Hybrid Solutions Design
Microsoft 365
Team Leadership and Project Delivery

Certifications
Microsoft Students to Business (S2B) - Development
Microsoft 365 Certified: Teams Administrator Associate
70-488: Developing Microsoft SharePoint Server 2013 Core Solutions

Professional Experience
ScalingProcess – *Senior Full-stack developer*
January 2026 – February 2026 | Quebec, Canada
I delivered a project focused on UFC and boxing data, built on a robust web scraping architecture to collect, normalize, and validate fight and odds information, and successfully delivered it to one of the leading players in this market, meeting high standards for data accuracy, reliability, and scalability.

PowerComm – *Principal Architect*
January 2025 – December 2025 | Rio de Janeiro, Brazil
Leading architecture for PowerComm, a SaaS communication platform integrating Teams, Email, and WhatsApp.
Driving technical strategy, scalability, and security for multi-tenant environments.

Orchestrating AI/ML integrations and advanced analytics for corporate messaging.
Designing and developing ETL pipelines on Databricks to power enterprise dashboards

Inpartec – *Principal Architect / Office 365 Solutions Architect / SharePoint Senior Consultant*
December 2011 – January 2025 | Rio de Janeiro, Brazil
Designed and implemented enterprise-grade Office 365 and SharePoint solutions impacting over 500,000 corporate users.
Led cross-functional teams in delivering cloud-based and on-premises solutions, increasing operational efficiency.
Architected and modernized collaboration platforms for diverse industries, reducing maintenance costs.

Level.Up Academy – *CEO*
May 2016 – December 2019 | Petrópolis, Brazil
Founded and managed a technology academy, teaching programming and cloud computing.
Guided hundreds of students through software development career paths.

Sys Manager Informática – *SharePoint Senior Consultant*
November 2016 – March 2017 | Rio de Janeiro, Brazil
Developed SharePoint solutions for enterprise clients.

OpenSwitch & Imago IT Solutions – *ASP.NET Developer*
2011 | Rio de Janeiro, Brazil
Created web applications in ASP.NET for local businesses.

Allen Informática – *Developer*
August 2010 – May 2011 | Rio de Janeiro, Brazil
Worked on internal and client projects using C# and Microsoft SharePoint, contributing to the development of custom web components, workflows, and integrations for enterprise environments

Education
UNOPAR - Universidade Norte do Paraná
Superior Technical Graduation in Systems Analysis and Development (Jan 2023 – Dez 2025)

Languages
Portuguese (Native)
English (B2)

Key Achievements

Founder of a programming school, mentoring students in software development and industry practices.

Passionate about modern cloud architectures, DevOps, and teaching.

Over 15 years of hands-on experience working with .NET technologies, from ASP.NET to modern .NET Core and cloud-based solutions.

Experience with mobile development using Flutter and backend development with Ruby on Rails.
